WORK EXPERIENCE

Company Commander – 1st Lieutenant – Military Police

U. S. ARMY 2017 – PRESENT
Reserve Station - Mesa, Arizona

- Top Secret with Sensitive Compartmented Information Clearance
- Selected over 4 senior Captains to command a Military Police Combat Support Company with 116 personnel and \$34 million in equipment
- Offered commanders vital advice on training, planning, and execution
- Executed command authority and disciplinary action for personnel who disobeyed orders or violated uniform code of military justice
- Consistently led and supervised company level meetings about future training, personnel problems, and equipment/supply issues
- Finished top 25% of class in Basic Officer Leadership Course

Project Manager – Construction

BRIGHT EDGE LLC 2019 – 2020
Construction company in Graham County invested in new home builds, foreclosures, and rentals

- Supervised million dollar budgets across 15+ residential assets
- Managed teams of up to 15 workers for major renovations on foreclosures, repairs on rentals, and all stages of new single family residence construction
- Leveraged tight budgets against time constraints on “flipping” homes to maximize profits and coordinated with brokerages to sell homes
- Built timelines and full scale budgets for each real estate asset
- Interviewed and hired top contractor talent to promote on-time and under-budget project completion

Environmental Scientist

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY 2014 – 2019
State agency that implements Federal and State environmental regulation to protect public health and the environment

- Network administrator, oversaw server and databases for pollution datasets
- Led strategic planning and implementation of long-range plans for environmental programs
- Mitigated regulatory risks by guaranteeing program requirements adhered to environmental compliance standards
- Wrote CRBasic code to configure Campbell field loggers for data collection that resulted in cost savings and leveraged time efficiently

Research Associate

USDA FOREST SERVICE 2010 – 2014
Employed under the research branch to combat invasive cheatgrass populations in the Great Basin

- Published data for a scientific journal and gained co-author on literature
- Directed intensive multi year projects in field and laboratory experiments
- Programmed with R for statistical tests including: ANOVA, GLMEM, linear models, chi-square, t-tests, etc
- Conducted field crews to identify native and invasive plant species using GPS coordinates, sampling quadrats, and plant identification tools
- Prepared documents, graphs, and data for regular team meetings and faculty
